Boost Your Beauty Self-Esteem

Know where your "mirror, mirror" confidence falls.

TIP: Enhance your eyes

Add sparkle. Choose a sparkly shadow or highlighting cream. (Beige or bronze is more authentic than stark white or silver.)

But keep it subtle. Dab shimmer in the inner corner of eyes and center of lids; gently blend. "It creates brightness—like after a good night's sleep," says Landy Dean, makeup artist at the Marie Robinson Salon in New York City.
