## GET YOUR FILL

With the help of these top doctors, get your face ready for summer (and turn back the clock a touch in the process).

**DR. LANCE BROWN** Brown trends in favor of safe (and effective) techniques. He conducts seminars in proper Botox use and recently led an effort to launch a dermatological training site in Chile. **Fillers offered:** Juvéderm, liquid injectable silicone, Radiesse, Restylane, and Sculptra. 386 Montauk Highway, Wainscott, 725-1771.

**DR. GERVAISE GERSTNER** A protégée of Dr. Pat Wexler, and now a board-certified dermatologist with several high-profile clients, she specializes in facial fillers and is the Upper East Side-meets-the-Hamptons skincare guru. **Fillers offered:** Collagen (Zyderm and Zyplast), Juvéderm, Cosmoderm, Captique, and Restylane. 1130 Park Avenue, NYC, 212-369-9600.

**DR. NORMAN ROWE** This plastic surgeon caters to a range of faces in the entertainment industry. Rowe belongs to numerous professional groups, including the American Board of Plastic Surgery and the American Medical Association. **Fillers offered:** Juvéderm, patient fat transfer, Restylane, and Sculptra. 50 East 69th Street, NYC, 212-628-7300.

**DR. NEIL SADICK** Dr. Sadick is one of the area's most renowned dermatologists, president of the Cosmetic Surgery Foundation, and the global medical advisor for Christian Dior Beauty. It's no wonder people fly cross-country just to get a coveted appointment with him. **Fillers offered:** ArteFill, Silicone, Juvéderm, Radiesse, Restylane, and Sculptra. 833 Northern Boulevard, Suite 130, Great Neck, 516-482-8040.

**DR. PAT WEXLER** This celebrity dermatologist has practiced for 22 years and is known for her fat injections—she literally takes fat from your backside and puts it straight into your kisser. And with well over 10,000 patients (and counting) so far, Wexler is clearly doing something right. **Fillers offered:** Cosmoderm, fat injections, hyaluronic acid, Perlane, Restylane, and Sculptra. 145 East 32nd Street, NYC, 212-684-2626.—A.M.
